

THE BLAIRMORE ENTERPRISE

VOL. XVII, NO. 15

THE BLAIRMORE ENTERPRISE, THURSDAY, APRIL 16, 1926.

FESTIVAL WINNERS TO GIVE MUSICAL CONCERT

A grand concert will be given in the local opera house on the night of Tuesday next, April 20th, in which winners in the recent Crows' Nest Pass Musical Festival, connected with the United church, such as the choir, Tuxis orchestra, winners of vocal, piano and violin contests, will take part, assisted by the Hillcrest orchestra, Joe Jaabec, solo violinist, and others.

All are artists and a most excellent programme of possibly three hours' duration is assured.

Doors will open at 7, concert to begin at 7.30, with Mr. L. L. Morgan in the chair.

The programme in part will be as follows:

- Vocal Solo—Marion McDonald.
- Piano Solos (two selections)—Francis Linville.
- Violin Solos (two selections)—Duncan Hamilton.
- Vocal Solo—Lena Fraser.
- Piano Solos (two selections)—Alice Hornequist.
- Vocal Solo—Doreen Chappell.
- Violin Solos (two selections)—Eric Hornequist.
- Piano Solo—Mrs. J. B. Wilson.
- Vocal Solo—Violet Rae.
- Orchestra Selection—Tuxis Orchestra.
- Piano Solo—Mrs. J. B. Wilson.
- Trios—piano, 'cello and violin).
- Misses Horton and Mowle and Mr. H.

Stobbs, of Hillcrest.

Two Selections by United Church Choir.

Violin Solo—Joe Jaabec, of Hillcrest.

Two Selections by Hillcrest Orchestra.

"God, Save The King."

The small admission fee of 50 and 15 cents will be charged.

FATHER COSMAN TO LEAVE BLAIRMORE

Owing to ill health, the Rev. P. J. N. Cosman, who for the past several years has ably officiated at St. Anne's Catholic church here, and who has during that time built up a strong mission, has been obliged to resign the pastorate here to enter upon surgical and medical treatment and a period of rest.

Father Cosman will be succeeded, we understand, by Father Morarty, who it will be remembered was a victim of an auto accident in British Columbia last year.

Father Cosman will leave for Rochester in the course of a few days. His many friends here regret his leaving and hope for his speedy recovery.

A dance will be given in the Union hall at Frank on Saturday night.

The ladies of the I.O.D.E. will hold a tea and sale of sewing, home cooking, etc., in the Elks' hall on Saturday from 3 p.m.

TENNIS ASSOCIATION FORMED

A meeting was held at the Greenhill hotel on Thursday evening, April 15th, at which twelve delegates representing Coleman, Hillcrest, Blairmore and Blairmore United Church Tennis Clubs were present.

It was unanimously decided to proceed with the formation of the Crows' Nest Pass Lawn Tennis Association, and R. F. Barnes, of Coleman, was appointed president and E. Muncester, of Blairmore, secretary-treasurer. Details of organization will be completed at a further general meeting of all the clubs. It is expected that in addition to the above mentioned clubs, the clubs at Fernie and Corbin, B.C., will affiliate with the new organization, with the possibility of extra clubs from Michel, B.C., and Bellevue, Alberta.

Plans of the new association include a big annual tournament, to be held on or about July 1st each year. This year the tournament is to be held on the courts of the Coleman club. In addition, there is to be an interclub league, with regular fortnightly matches. It is hoped that suitable trophies will be available for the tournament and league play.

Throughout the meeting, a healthy spirit of interest in tennis was evident, and this augurs well for the future of the new association and for tennis throughout the Pass town.

ALL CANADA SUPPLEMENT ABOUT CANADA'S PROGRESS

An All Canada Supplement is being prepared by The Christian Science Monitor. This will be issued on April 16th next. At the present time, when much thought is being devoted by Canadians to the fostering of a true national and international spirit, this issue of The Monitor will do much to aid in this direction, besides telling to the world the story of Canada's progress and possibilities. The progress of the province of Alberta in its relation to the Dominion as a whole will receive due attention in this supplement. Alberta's contribution to the cultural life of Canada, as well as its achievements in relation to agriculture and other industrial lines, being duly set forth.

The Christian Science Monitor was established in 1908, its first issue appearing on Thanksgiving Day, November 25, of that year. This unique international daily newspaper was established by Mary Baker Eddy, the discoverer and founder of Christian Science, and author of its textbook, "Science and Health with Key to the Scriptures." In telling of her purpose in establishing this newspaper, Mrs. Eddy wrote: "The object of the Monitor is to injure no man, but to bless all mankind." (Miscellany p. 353).

The progress of Canada is being substantially aided by this unique newspaper, the policy of which has been appropriately expressed by its present editor, Willis J. Abbott, as "headlining happiness."

MINUTE INTERVIEWS

Rev. N. F. Priestly, Coaldale: "The privilege of attending the recent musical festival at Blairmore was a rare treat. I was astonished at the size and quality of the festival. The work being done through The Pass in a musical way is splendid and the effects of the festival are sure to be felt for good in every community. Excepting the Alberta provincial festival, there is nothing to compare with the Pass Sunday School Festival in Alberta."

Twenty-five years ago the town of Pictou, Nova Scotia, engaged a town police officer at a salary of \$450 a year with a promise of \$50 annual bonus for good work.

TENDERS FOR ROAD WORK NOT ACCEPTED

At a special meeting of the town council on Tuesday night, tenders for the scarifying, grading and surfacing of the main highway through the town of Blairmore were opened and considered. Only two tenders were submitted, based upon specifications drafted by Engineer Wallace. The Commercial Cartage Company's figure was in the neighborhood of \$5500, while that of R. M. & Sartoris, for somewhat less work, was around \$2000.

After some consideration it was decided to not accept either tender.

The matter of repairing our main thoroughfare will be given further consideration at a later date, when it is hoped the work will be done on a somewhat modified scale.

The report of the engineer on the water situation, was submitted in writing, and the whole matter was placed in the hands of the waterworks' committee, with instructions to take all necessary steps, securing legal advice in connection with franchises, etc., and to report later.

ALEX. AULOFF DEAD

Alexy Auloff, known as Alex. Auloff, who was sentenced to seven years in the penitentiary at Prince Albert in connection with the holdup of the C.P.R. train at Sentinel and the shooting which followed at Bellevue, in which Constable Bailey, of the A.P.C., and Corporal Usher, of the R.C.M.P., were shot and killed, has died in prison. Bassoff was hanged for the murders.

Halloff's death took place on April 15th, with the inquest held by Dr. King, giving the cause of death as miners' phthisis, a sort of tubercular disease which affects miners.

Auloff was arrested at Butte, Montana, and brought to Lethbridge, to stand trial, and was sentenced on January 26th, 1924.

This is the last of the bandit trio, Akoff having being killed in the gun battle with police at Bellevue.

J. L. PARKER MAY BE CONSERVATIVE CANDIDATE

Mr. J. L. Parker, of Lee Lake, is being urged to allow his name to go in as a candidate for the Conservative interests in this riding in the forthcoming provincial election.

Mr. Parker has been a resident of the district for upwards of twenty years, and is an experienced farmer, rancher and miner.

The remains of the late Mrs. J. M. Windsor were laid to rest at Burnside cemetery, Calgary, on Sunday afternoon last, following a funeral service held at Knox United church. The late Mrs. Windsor was born in Collingwood, Ontario, and came to Alberta many years ago, being married at Aldie in 1908, at which time Mr. Windsor was manager of the Union Bank branch there. Later they transferred to Blairmore, where they resided for a number of years, later being moved to Boissevain, Manitoba, and Winnipeg, returning to Calgary in 1922. Besides her husband to mourn her loss, she leaves one daughter, Margaret, who is attending St. Hilda's ladies' college.

Jack Bradley, aged thirty-eight years, one of the best known of Calgary postmen, died suddenly on Monday noon. He had been a resident of Calgary for eighteen years and connected with the post office since 1912. He went overseas with the 69th Battalion and served in France with the 4th Gordon Highlanders (15th Bn.). He is survived by a wife, at present in England. The remains were laid to rest yesterday afternoon, arrangements being in charge of the B.P.O.E.

WHEREABOUTS OF THE DEVIL DISCOVERED

Anxiety over the whereabouts of his Satanic Majesty might now be set at rest, since Councillor Evan Morgan, chairman of the department of public works, has announced that he received the very devil from some of the ratepayers of Blairmore, who failed to read properly an item contained in last week's issue of The Enterprise.

Mr. Morgan is thankful that he did not receive all but—

The ladies of the I.O.D.E. will hold a tea and sale of sewing, home cooking, etc., in the Elks' hall on Saturday from 3 p.m.

MRS. L. C. MCKINNEY, ex-M.P.E., of Carleton Place.

Mrs. L. C. McKinney, ex-M.P.E., of Carleton Place, will be the special speaker at the morning and evening services at the United church on Sunday next.

The evening service will take the form of the annual Father and Son Service. Singing at both services will be led by the Tuxis orchestra.

Services 11 a.m. and 7.30 p.m. Mrs. McKinney is one of the foremost lady speakers in Western Canada and a well worth hearing. Owing to the fact that she takes a deep interest in young people's work, her addresses on this occasion will be particularly interesting.

When Pay Day Comes

THE first claim you should meet on pay day is your savings. In time of sickness or unemployment, your money is your best friend—if you have saved it.

There comes a time for all of us when ability to earn must cease. Your accumulated savings must then take the place of your present earning power.

Ask for a copy of our booklet, "The Measure of Your Income." You will find it useful.

French Train Honors Dead

Blows Down When Passing Cemetery
Where British Heroes Sleep

The blue train, running daily to the south of France, which is regarded as perhaps the finest train in the world, is to pay daily an act of homage to the British dead who sleep in France. It slowed down on Armistice Day as it passed the cemetery at Bayeux, where ten thousand British heroes sleep. This act of reverence was repeated on the following days, and railroad officials have now decided that the blue train will slow down every day as it passes the cemetery.

The Nationalist Government, Ankara, has decided to introduce the English or Latin alphabet in place of the present cumbersome Arabic characters.

For years Mother Graves' Worm Extirminator has ranked as a reliable worm preparation and it always maintains its reputation.

Christian of Denmark is the monarch of monarchs, the bluest king in the world. He is about 4 feet 6 inches tall and, according to his friends, is every inch a king.

Boys outnumber girls in the Malla, Ore, public school, and the last graduation class was composed entirely of boys.

Healthy Mothers! Healthy Children!

The Shaw Studio

Mrs. Phoebe Claus

Hamilton, Ont.—"I wish I were able to convey to every weak and ailing woman the value of Dr. Pierce's wonderful medicines and what they have done for me. I am the mother of six children and Dr. Pierce's Favorite Prescription was the only medicine I ever took during pregnancy. I always got along fine, it kept me so well and strong that I was able to do my work right up to the last and I did not suffer with any of the troubles that come to most women at that time. Also I had very little suffering. My children were all healthy and strong and I regained my strength very quickly afterwards. Favorite Prescription is the greatest medicine a woman can take."—Mrs. Phoebe Claus, 56 Clyde St. All druggists, Tablets or liquid.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., if you desire a trial box. Favorite Prescription tablets.

WORLD HAPPENINGS BRIEFLY TOLD

The United States is to participate in the world's poultry congress to be held in Ottawa in 1927.

Thomas Burberry, the inventor of waterproof clothing bearing his name, died April 6, in England.

Police chief of Denmark husband of the former Lola Brophy of Ottawa, forfeited \$5 to a California traffic court when he ignored a stop sign.

To commemorate Good Friday, King Alfonso committed death sentences against nine persons, including two women.

Silver black foxes sold last year by fox farmers of Prince Edward Island had a total value of more than \$2,000,000.

Bringing virtually every city in the Pacific Northwest to within approximately 40 hours of New York City, the Pasco-Elko air mail service has started.

Viscount and Lady Alenby have returned to England after a month of strenuous lecturing and travel across the Dominion under the auspices of the National Council of Education.

The liner Empress of Canada docked at Victoria, April 6, from the Orient with 300 passengers. Included in the cargo were 5,640 bales of silk valued at \$6,000,000.

Professor William P. Alexander, of the Buffalo Society of Natural Science, has a fine live five-foot box constrictor on display. It arrived from Guatemala in a bunch of bananas.

Ulster, Ireland, has a new organization, "The Ulster Tourist Development Association," to advertise that part of the country as an attraction for tourists.

The dispatch of a delegation of Canadian farmers to Great Britain and Ireland has been recommended to the Canadian Government by Hon. P. C. LaPlante.

Traffic regulation of the pedestrian as well as the motorist was adopted as an underlying principle of the model traffic code at the national conference at Washington on street and highway safety.

Opening up of road communication to within forty miles of the Red Lake mining district was assured as the result of an agreement between Hon. W. R. Clegg, minister of public works, and T. A. Anderson, representing a large mining syndicate.

SUNDAY SCHOOL LESSON

APRIL 18

THE BEGINNING OF SIN

Golden Text: For as in Adam all die, so also in Christ shall all be made alive. I. Corinthians 15:22.

Lesson: Genesis 1:24.

Devotional Reading: Psalm 1.

Explanations and Comments

The Temptation of Sin, verses 1-5.—Read The Historical Background. The story begins with the words, "Now, the serpent was more subtle than any beast of the field which Jehovah God had made." The serpent is here the power of evil personified. It is Milton, not Genesis, that calls the serpent Satan. It is easy to see that the serpent is made the symbol of temptation because of its glittering eyes, twisting coils, stealthy motion and deadly fascination.

The serpent shows his subtlety in his first remark to the woman—when he holds more susceptible than the man. "Yea, hath God said, 'Ye shall not eat of any tree of the garden?'" he questions. The interrogative sentence is also exclamatory and is designed to arouse distrust in God. Dr. Skinner gives the thought finely by translating it, "Ay, and so God hath said that you shall not eat the fruit of any tree in the garden?" and finds the force of the prohibition purposely exaggerated in order to provoke inquiry and criticism.

"The serpent is entirely incidental. No serpent from without can ever tempt a man unless there is a serpent of lawless desire within."

Some people believe in luck just because they never have any.

FASHIONS

Exclusive Patterns
& Skilful

Fabric Combinations Achieve Smartness in Two-Piece Frocks.

Fashion's fancy for combining two materials in one costume is characteristically expressed in this model which has flaring skirt, round collar and bands on the sleeves of navy-blue tulle, plaided in red, yellow and white, while the overblouse is of auburn crepe satin. Raglan sleeves are a feature of the blouse, which slips on over the head, fastening under a flat plait, and is banded at the hips, giving the new blouse effect. The skirt is moderately circular, opening at the side front, but bound at a tresser with the lateral waistline. If desired, the side front opening may be omitted and the front made in one piece. The blouse, No. 1063, is in sizes 16, 18 and 20 years, for 34, 36 and 38 inches bust only. Skirt 18 years (38 bust) requires 2 1/2 yards 36-inch material. The skirt, No. 1067, is in sizes 26, 28, 30, 32 and 34 inches waist. Size 26 waist requires 2 1/2 yards 42 or 44-inch material. Price 20 cents, each pattern. Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

Britain Building Huge Seaplanes

Huge seaplanes are in course of construction for the British authorities, and when complete will be the largest craft in the world. One giant is having two 1,000 horsepower engines installed, and when fully loaded will weigh more than 15 tons. Another supergiant boat will be driven by three engines, capable of developing 2,100 horsepower. It will have accommodation for thirty passengers in a luxurious saloon.

ON THE AIR

What is Doing in the World of Radio

A class of twenty California teachers are being trained to give lessons over radio to school children in class rooms.

Clauses of the copyright bill now before parliament which affect radio broadcasting are to be amended or withdrawn to conform with requests of the Canadian Association of Broadcasters.

Radio soon will supplement the present inter-departmental telephone system of the New York police department to speed up the broadcasting of alarms and the apprehension of criminals.

Charles Stinson and "Mac" Mackintosh, two Regina radiofans, are enjoying over a piece of good fortune which they encountered recently. They were listening in to hear what they could hear, and they got 4AR Melbourne, Australia.

A broadcasting station as powerful as London is being constructed by a London amateur to enable Arthur Cook, a British missionary in Iceland, to preach to his "parishioners" in the remotest parts of the island, where the rigors of the weather make travelling difficult.

Radio fans who often wonder how call letters are selected are told that their use is regulated by an international agreement. Germany is allotted all three-letter combinations from AAA to AMM; France, P; Japan, J; Great Britain, B; Canada, C; and so on. Three and four-letter combinations from KDA to KZZZ and all that begin with W and N belong to the United States. The U. S. Government reserves for its own use combinations that begin with N and M, and signs WUA, WVZ and WXA to WZZ to the army.

A Fos to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no halfway measure about this remedy. It goes right to work and drives asthma out. It reaches the innermost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Turkish Women Cling To Scarf

Stoutly Resist Official Efforts to Introduce European Hat

Men are being hanged in Turkey for refusing to take the fez in favor of the western hat, but the women are stoutly resisting official efforts to reform their headwear, and in the language of the street, "are getting away with it."

Meetings of women have voted not to give up the tight scarf covering the upper forehead, which so gracefully coils the modern Turkish society women, on the ground that it is both more becoming and less expensive than the hat.

With so thorough a preparation at hand as Miller's Worm Powders, the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in his growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

An impassible man is one who hasn't a bit of foolishness in his makeup.

Money talks pretty conclusively at times, but occasionally it gets rattled.

Chapped Hands

And other skin irritations are quickly relieved by a few applications of Minard's Ointment with sweet oil.

Izzy: Why, ammonia comes in bottles and pneumonia comes in chests.

Still Enjoying Life at 84

Thanks To
That
Wonderful
Remedy

Mrs. F. H. Miller, 1845-11th Ave. East, Vancouver, B.C., writes:—
"Five years ago my husband suffered terribly with severe attacks of palpitation of the heart and smothering spells, and two doctors stated that he could not possibly live six months."

A friend recommended Miller's H. and N. Pills, with the result that my husband is still enjoying life at the age of 84 years.

He has improved so wonderfully that he can now climb the stairs without having those awful pains in his heart."

CHAPTER II—Continued

The sudden sight of the theories he could not afford, either to have or not to have, sent her into a torrent of hysterical laughter. "Gradyon," she said, "I am waiting for you. I have waited until the girl in the chair quivered, her laughter dying away in stifled sobs. The secretary moved toward her, then, and held out her wrap."

Automatically Joanna drew the cloak around her slender figure. Then she faced her. Joanna's eyes were turned, faced Gradyon again and cried out to him:

"But what am I to do—with the money?"

The man answered in the even, curiously convincing manner that so completely baffled her. "Gradyon," he said, "the question I may not answer, I shall be eager to know what your decision will be."

The secretary would have comforted the girl; would have taken her arm and led her out into the store and to the street, but Gradyon stayed her with a motion of his hand. "What," he said, "Joanna was to face, she must face it alone. Joanna groped her way across the office and the reception room. The secretary held open for her the outer door. For a moment she leaned against it. Before her eyes the busy people who hurried through the passage ways between the partitions of the cubicles on the "office floor," seemed to be swimming in a whirlpool. She felt that Gradyon had followed her and was standing close. Without turning she asked, her voice rising barely above a whisper:

"Which way do I go?"

A long time afterwards, when Joanna of the girls for short and hips too red and tanned too, very much like a golden girl around whom a vortex revolved, she remembered Gradyon's reply to her whispered appeal: "I wish that I might show you my dear; but it is every girl's burden to choose for herself. And as each one of you make your choice, the world becomes better or worse. You may go either to the right—or to the left!"

When the door closed behind the girl who had been "Miss Twenty-seven of the silks," Gradyon asked the secretary to get for him on the telephone, the bank, where the secretary was wonderfully carried away in her hands. "Ask that I have Mr. Eggleston."

THIS WOMAN NOW WELL

Her Suffering Relieved and Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I am certainly very grateful for the benefit I received from Lydia E. Pinkham's Vegetable Compound, also the Sarsaparilla and the Liver Pills. In the early spring I was suffering so much from loss of blood that I thought I would never be any better as doctor's medicine relieved me only for the time being. I saw the Vegetable Compound advertised in the Toronto Star, and I tried the Vegetable Compound Tablets the best for me. I have been taking them by me all the time. After reading your Private Test-Book I saw it was necessary to use Lydia E. Pinkham's Sarsaparilla and I can safely say I feel a different woman. I am a very happy woman, but I am ready at all times to boost your medicine. Mrs. CHARLES GIFFIN, 949 Landsdowne Avenue, Toronto, Ontario. "You may be having an experience similar to Mrs. Giffin's and will be interested to know what she did. Every sick woman who writes me that Lydia E. Pinkham's Vegetable Compound will help her, since we are told that it does help 98 out of every 100 women who take it. Sold by druggists everywhere."

He is expecting a call from him. The telephone conversation was brief. Gradyon seemed only slightly that his friend, the closest of the friends of his elderly years should know that "she" was on her way to the bank, that "she" would be there in a few minutes.

At the other end of the wire Andrew Eggleston, a gray man who might have been modified from the same pattern that had shaped Gradyon except that the lines of his face were sterner, the lights of his eyes less gleaming and his features more sparsely dotted, would have had his friend say more.

He was unkind with his own curiosity. Andrew Eggleston, chairman of the board of the great banking institution, and himself one of the world's richest men, was totally unfamiliar with a sense of curiosity about his "bank's" patrons. Yet, he wanted to know how "she" suddenly had become possessive of the not inconsequential sum of one million dollars. He attempted to keep his friend, Gradyon, on the line.

"What did she say? How did she take it? Did she—that is well, I don't know. Is that all you have to say? That your sales clerk is coming down to get a million dollars?"

Eggleston's chief receptionist in his office was for his "secretary's" temper. He frowned disapprovingly before the fulfillment of spitting fire to telephone. That Gradyon would not hurt him.

"Her emotions at the moment, my friend, hardly of any consequence. At any rate, I know she will not have recovered from them by the time she reaches the bank. Then you may estimate them for yourself."

The banker sought suitable phrases with which to express his irritation at his friend's reserve. Failing to find them, he clicked his receiver abruptly. "Also he relieved himself of a well-considered, sonorous oath."

A much younger man, who filed in the embrasure of a window across the room, laughed softly. The secretary began to interest you! "This man remarked, 'I hope, for your sake, it becomes worth while.'"

Eggleston glared at the younger man sharply, but declined him no reply. He turned to the papers on his desk, and said to himself: "Mr. Gradyon, the man in the window, resumed his inspection of the panorama of the street outside. An observer, studying his face, would have traced on it the spectra of criticism and would have noticed that they stamped him as one who harbored the conviction that he knew all sorts of women and classified them none too pleasantly."

The same analytical observer would have said of Eggleston, writer of many of the world's most important affairs, that he was a man who had lived a life in which women had been a useless ornament.

When Joanna was out of the presence of Gradyon and out of the offices of his secretary, a quietness and an efficiency that both depressed and fascinated her, her dazed numbness quickened suddenly into a feverish excitement. That she had become a ghost in some fantastic masquerade, she was sure. But the thrill of it made her pulse leap. She wanted to rush to the silk counter and beside her amazing mystery to her chums there; even to confront "Mr. Good Morning" with a pose that would achieve its climax with the bank's letter under his nose. Then she decided that such a display would be premature. By this time she was at the street entrance. The first that met her was "The Old Man" had for her to ask the doorman for his car which, he had said, was waiting for her at the curb. She decided to try it.

To her amazement the doorman, representative in his comeliness, seemed to expect her. A wave of his hand brought the limousine to the

space opposite where she waited. The "old man" climbed aboard and held open the door. As she approached him her eyes widened. He touched his cap. When she would have looked at her letter to find the address, he interrupted:

"I know where, Miss. Mr. Gradyon gave instructions. It's to the bank."

Never before it seemed to Joanna, had a car taken so long to go wherever it was headed for. Yet, really, the chauffeur, whose cheerful salutation Joanna's excitement turned suddenly to panic when she realized that her driver was holding his arm to ease her to the pavement with the arched stone portals of the bank looming in front of her. A doorman responded to a sign from the driver, and there was a low word between them. The doorman touched his cap.

"I am to take you to Mr. Eggleston's rooms, Miss," he said, with a deference which Joanna recognized as one. Eggleston, she understood, was the man she was to see. The utter drama of it all appalled her again. She looked into the chauffeur's face and caught, there, a gleam of understanding that, after all, she was just a girl of the shops whose limited story whose ornaments, airs and fashions were only gaudy imitations of the fancied vogue of smart debutantes. She grasped at him as a friend.

"Tell me," she pleaded, starting the stiff formalities of the driver or her employer's private car, "What are they doing to me?"

"The 'Old Man's' chauffeur dropped his fingers from his cap and, in the face of this re-arrangement of caste at his proper level, immediately uttered to Miss Twenty-seven of the silks. He spoke confidentially:

"I tell you, Miss, I know nothing except that I was to bring you here to old Eggleston's bank. But this I'll tell you, too. If you take it from me, my boss, or your boss or his, but it's sending you in to see his grumpy pal, Eggleston, there's something doing. And when there's something doing, a pretty kid like you, watch your step, and your step! And maybe you'll better give me your number so I can call you up when I'm off duty after ten. You're the kind that looks too good to be true."

(To be continued)

Science Plans A Superman

Not An Impossibility Says Editor of Science Service.

Creation of a superman by chemists is not an impossibility, according to Dr. Edwin E. Sloan, editor of science service.

In an address to the Washington members of the American Chemical Society, Dr. Sloan told how he had created their queen by feeding the cells or larvae a kind of jelly-like mixture extracted from flowers.

The bees, he said, wanted their queen to be bigger, stronger and better than themselves, and this jelly-like mixture produced that result.

He suggested chemists might learn of what this substance was made and by feeding it to human beings might be able to produce a superman.

A Super-Centurarian

Ireland, famous breeding ground of hale and hearty old men, has produced a super-centurarian. He is William Smith, of Dromara, County Down, and has celebrated his 151st birthday.

He was middle aged, according to ordinary standards, when he went off to fight in the Crimean War. His most strenuous exercise nowadays is walking a mile each Friday to receive his pension.

After you observe the way women treat a shop girl, the manners of a five-ton truck don't seem so bad.

"On the level, will this fly run?"

"On the level, not so good, but you should see her coast."

Tibet City Bars Electricity

Rulers of Lhasa Refuse to Allow Modern Improvements.

Lhasa, the forbidden city of Tibet, does not want electric lighting. Its rulers, the lamas, are afraid that the light of modern knowledge might be lost. Hence, the introduction of modern machinery, and that would be fatal to their authority. To run 50 electric plants in Lhasa would cost for education among the operatives and involves contact with the outside world. Hence, the massacre of a party representing 300 tons of electrical equipment intended for use in the forbidden city. Every member of the convoy was killed and the machinery was destroyed and thrown over a precipice.

It is an uncomfortable, but not a poor, country. The population remains almost stationary for the reason that there is no immigration; polyandry is common and celibacy prevails among the lamas, who number about 80,000 in a total of something like 650,000 people.

Nobody wants to migrate to a land where the temperature often varies in a single day from roasting heat to below freezing point. The Indians are primitive and will remain so while the lamas are in control.

But even Tibet will not be able to definitely resist the march of progress. The killing of the yaks, Tibetan who was educated in England, and wanted to bring electric lighting to his people, will not end the search for knowledge. Others will be inspired rather than deterred by his fate and in time break down the barriers of ignorance.

Smallest Watch in World

Timepiece Made by Vancouver Watch Maker Keeps Perfect Time.

Walter Lett, Vancouver watchmaker, claims to have produced the smallest watch in the world after two years of the regular watch.

Made for and mounted on a tie-pin, the watch can be covered easily by a silver five-cent piece. Alongside of a regular railroad watch the tie-pin timepiece is about one-fiftieth the size of the regular watch.

The delicacy of Mr. Lett's task may be appreciated when it is stated that the screws used would carry 250 threads to the inch, and that it would take 30,000 of them to make a pound. Similar screws, placed on a white sheet of paper, show without a power glass, as mere specks, much smaller in length than the width of a pinhead.

The watch in its entirety, weighs but one-half pennyweight, or .84 grains. Yet it ticks right along and keeps perfect time. Mr. Lett made the special magnifying glass required in the manufacturing of the watch and made also what is believed to be the only dial indicator of moment, which gives the exact dimension of the thinnest sheet of paper.

Little Helps For This Week

I will help thee, saith the Lord Isa. xlii, 1.

There ran a whisper through the flat chig sky.

"Look up and fast not, do thy work as thou art!"

Train nerve and sinew in the glad employ.

Drink happy draughts of love that will not slay.

Life shall not fall thee, for thy lord is high."

When do we lift each other up? Must we wait until first, or can we reach up our feebleness together to the hands that do offer us a mighty help from on high? Near-doing and near-loving, these life particles make the great heaven, as the polished stones of light, all magnified one way, make the great blue in which the stars burn forever.

—Adeline T. D. Whitney.

Dog Maker Spectacular Leap.

A dog, which had jumped a straddle over the Benaranga at Southampton recently. The dog broke away from his leash and many persons on deck joined in an attempt to catch him, but he jumped into the sea 55 feet below and was to be rescued by occupants of a small boat.

The man who is too poor to lend his friends money will never have many enemies.

Looking For Better Times

Irish Believe Fairies Are Back and Will Bring Good Luck.

The horse of Eiland have been heard howling restlessly near Sluagh town, Ireland, and hundreds of people have been travelling daily to a clump of bushes, recently cut down, whence the unearthly music is said to proceed. Many declare they could hear strange haunting melodies.

As the story goes, a horse was saved from the Blackwater River, and two young men told the owner they saw it being driven furiously by a veritable leprechaun—a little man in red.

At the cutting of a thornbush, Eiland music was heard, while there are several persons who claim they picked up tiny candles.

The old folks say Ireland never has seen good times since the fairies departed, and that now that they have returned brighter days may be expected.

ALWAYS TIRED OUT

People Who Feel Like This Need

The Help of a Tonic.

The dictionary defines a tonic as a medicine that increases the strength and gives vigor to the system. That tells why Dr. Williams' Pink Pills are a real tonic. Thousands of men and women are ailing to-day, not sick in bed but without ambition to do a full day's work, though they are forced to keep on. They are always tired or nervous, do not sleep well, and awake in the morning unrefreshed. Many have headaches, backaches and aches in the joints. Such people need the tonic help of Dr. Williams' Pink Pills. The beneficial effects of this medicine reaches the whole system.

Dr. Williams' Pink Pills do more than relieve the symptoms—they remove the cause. Mrs. E. Virginia Gray, Toledo, Ohio, has proven the value of this medicine and says: "I can sincerely recommend Dr. Williams' Pink Pills for a tired and run-down condition of the system. I have followed the nursing profession for a number of years and after a few weeks of hard or trying cases I take two or three boxes of Dr. Williams' Pink Pills, and always with the very best results. The pills also proved a great boon to my daughter at a trying age, and I have seen friends' results follow their use in other cases."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams Medicine Co., Brockville, Ont.

Advertise the Prairie Climate. Instead of apologizing for the western climate, and pointing out compensating advantages, we should advertise it and make it known as an asset. If the health of the people is any guide to the virtues of the weather they enjoy, Saskatchewan's climate cannot be excelled. The death rate is lower here than anywhere else on earth—Saskatoon Star.

Nurse's Advice

Rid Her Of Pimples

Brooklyn. Mrs. Minnie Fensterwald—"My pimples and black heads got so bad I read it was excema. I consulted in a nurse friend of mine. I had been troubled with constipation and indigestion for some time. She advised me to try Carter's Little Liver Pills. You can see by my picture that the treatment has done wonders, and I am now free from constipation. Chronic constipation makes thin causes pimples. Carter's Little Liver Pills encourage the bowels to eliminate the poisons. Druggists, 25¢ and 50¢ packages."

Think Women Should Take Aeroplane Flights

Would Alay Fears Regarding Aviation Opinion of Officers.

Twelve reserve officers of the Eighth Corps Area who have made a report to Major-General Ernest Hinda, commander on reserve training, San Antonio, Texas, believe woman's place is in the air as well as the home.

The officers recommended that all reserve officers of the Air Service be placed on active duty, without pay and allowances, at certain intervals, to permit their wives to take aeroplane flights with competent pilots.

This suggestion is offered with the idea that such action will stimulate the enthusiasm of the Air Service Reserve and will reduce the objection now so prevalent on the part of their families to flying, the report said.

Clever Artist Was Handless

Trained Himself To Hold Brush and Paint With Teeth.

Alexander Alexander, who although born without hands gained a considerable reputation as an artist, has just died at Edinburgh.

On several occasions he had painted large exhibitions of the Royal Scottish Academy. In one year two pictures were accepted.

Since boyhood he had trained himself to hold brush or pencil with his toes.

When a valuable miniature, about one inch in size, by a famous Italian artist, was defaced, Mr. Alexander undertook the delicate work of restoration, and completed it in 12 days.

"But," she protested, "I've been told that you are a reformed rake."

"Is false!" he replied vehemently. "Why, I've never even thought of reforming."

W. J. BARTLEY, PUBLISHER

Blainmore, Alta., Thurs., Apr. 15, 1926

Mr. Cootie managed to get his resolution calling for a reduction in the duty on automobiles before the house of commons on March 29th, although he was unable to get it to a vote. Mr. Cootie was able to show that the wages paid in automobile factories in Canada are only about half the amount of the across price which thereby enables the manufacturers to collect from the people in Canada. The only members in opposition to Mr. Cootie's resolution were Mr. Morison, from East Borneo, in which the town of Ford is located, and Mr. Haines, who lives in Ontario. These gentlemen did not deny any of Mr. Cootie's statements, but dwell on the benefits of other trades which supply automobile parts. But Mr. Cootie has been able to get the question before the house and to attract some attention to it throughout the country, and the result will be to the most vulnerable part of the protective tariff fetish. *Montreal News.*

THE CROWS' NEST PASS. MUSICAL FESTIVAL

In the always praiseworthy endeavor to foster and encourage musical talent and the taste for music, the Crows' Nest Pass Musical Festival has taken a noteworthy lead. That which appeals to the senses is a service rendered as much as that which backs material benefits, and service of this kind which musical festivals give cannot be over-estimated in the joy and brightness it brings to life, the uplifting influence which it helps to spread, and the new world of enjoyment to which it opens the gates.

This festival held at Blainmore was in a sense a community one, varied and diversified, tasteful and tuneful in what the syllabus called for. The dances under which the festival was held are illuminating, the guiding spirits being the churches and the Sunday schools, emphasizing by this latest praise take its place with prayer. Its influence on the church choir as he will be immense in giving worship a dignity in what church music and singing contribute. The number who took part in the festival proves the attraction and shows that it is not without its appeal. If it has brought to light hidden talent and taken it by the hand it would not be the least of the services which the Crows' Nest Pass Musical Festival will render. The rivalry in the field of music need in itself prove inspiring.

One can dispute the truth that music of the kind to which musical festivals lend themselves is elevating and not degenerating. This is the influence of music, and is there not a great deal of truth in what Shakespeare puts in the mouth of Peter in "Romeo and Juliet," "When gripping grief the heart doth wound, and doleful slumps the mind oppress, then music with her silver sound, With gently help doth lend redress?" There is, in addition to other things, very commendable juvenile welfare work done in what the Crows' Nest Pass Musical Festival features in that executive tonic which music administration in the way of healthy recreation. The festival committee is to be congratulated on a very happy achievement, and churches and Sunday schools entitled to full recognition in the part they have taken to give music the standing it deserves as have in the community. *Lethbridge Herald.*

ALBERTA LEGISLATURE
ADJOURNS TILL MAY

(By John Mackenzie)

The Alberta legislature adjourned on Thursday, after an eight weeks' session, having cleaned up the business on the order paper.

It would have been possible to pro-rogue, but for the natural resources bill, which cannot pass third reading until agreed upon by the Dominion house. Premier Brownlee announced that the adjourned session would be held on May 6th, or near that date, and that the election would be before July 15th.

Seventy-one bills have received their third reading during the present session.

The committee on redistribution, composed of members from all sides of the house, presented a majority and minority report. The majority report stated that on account of the committee not being unanimous, a general redistribution should be postponed. The Liberals on the committee presented a minority report, favoring leaving the seats as they are for another session, on account of accurate population data not being available, and arrangements having been made by the various parties for conducting the elections on the present constituency boundaries.

The government brought in a bill on Tuesday taking out the rural sections of the Calgary and Edmonton constituencies, separating the city of Medicine Hat and the town of Redcliff from the rural sections, and creating the seats of Cypress and Empress. The number of seats is left at sixty, as before.

C. R. Pringle, Medicine Hat, questioned the voting strength of the new Cypress constituency, basing his figures on the provincial election of 1925, when only 977 voted in the district named as a constituency. In the Dominion election of 1925, 1867 votes were cast. In the new constituency of Empress, only 1139 persons voted at the Dominion election.

Premier Brownlee said that the figures given were not fair, as the weather was very bad at the time of last year's elections and many of the voters were working in other parts of the province. The number of those entitled to vote in the Cypress poll in 1925 was 2211. 2900 votes were cast in the Redcliff constituency in 1925, as compared with 1204 in 1925. The decrease was largely due to weather and harvest conditions.

The bill was passed, the vote being 38 to 7.

A bill was passed Thursday enabling the government to, if necessary, operate the Edmonton, Dunvegan and British Columbia Railway, by appropriating \$482,000 for capital expenditure and reconditioning, and \$1,300,000 to be used in purchasing stocks, bonds, etc. The latter amount is believed to represent the Royal Bank's minimum offer for its securities. The government cannot operate the line without first acquiring the bank's securities. The bank wanted \$2,400,000, but has finally agreed to take less than \$1,500,000.

The government is instituting an enquiry into the telephone system, said Premier Brownlee on Thursday. The system was handicapped by excessive capitalization, caused by lines being placed where they could not pay their way. A large part of the system must be regarded as a colonization project. If the rates had been raised in the past three years it would probably have led to decreased rather than increased revenues. The enquiry was taking into consideration capitalization and rates but no part of the capitalization would be placed in general revenue without the consent of the legislature.

The Calgary hydro-electric proposals to electrify the towns along the Macleod to Calgary line. It is generally felt down this way that part of that district could be as well or better served by the East Kootenay Power Company, which has already had under consideration extension of their lines to Macleod and possibly Lethbridge.

DONATIONS TO C.N.R. SUNDAY SCHOOLS MUSICAL FESTIVAL

Following is a list of donors to the

Crows' Nest Pass Sunday Schools Musical Festival:

Election—Grade 1, 12 years, first and second medals, donated by Dr. Kynd, Coleman. Grade 2, 15 years, first medal donated by Mrs. P. Salt, Hillcrest; second, Mr. H. Burns, Blainmore, and Mr. J. McLeod, Coleman. Grade 3, 18 years, first prize cup, donated by Women's Institute, Cowley; second prize, medal, donated by Mr. L. L. Morgan, Blainmore.

Vocal—Under 10 years, first and second medals, donated by Dr. J. A. Key, Bellevue. Under 12 years, first prize donated by A.P.P., Blainmore; second prize donated by Mr. H. Burns, Blainmore. Under 14 years, first prize donated by Mr. W. H. Jackson, Pincher Creek; second prize donated by Mr. J. McLeod, Coleman. Under 16 years, first prize donated by Mr. R. Green, Blainmore. Under 18 years, first prize donated by Mrs. P. Salt, Hillcrest.

Piano—Grade 1, first prize donated by Mrs. D. G. Mackenzie, Blainmore; second donated by Mr. R. G. Foot, Blainmore. Grade 2, first and second prize medals donated by Mr. L. T. Morgan, Blainmore. Grade 3, first and second prize medals donated by Mr. W. G. Pearson, Blainmore. Grade 4, first and second prize medals donated by Mr. Noble McDonald, Bellevue. Grade 5, first prize donated by Mr. H. C. Morrison, Cowley; second prize donated by Mr. W. M. Bush, Blainmore; and Mr. J. E. Smith, Blainmore. Sight reading, first and second prize medals donated by Mr. W. Cole, Bellevue. Junior piano duet, first prize donated by Mr. A. Hall, worth, Bellevue; second prize donated by Mr. H. Blake, Bellevue. Senior piano duet, first prize donated by West Wind Girls' Club, Cowley. Piano open, first prize, a-cup donated by Women's Institute, Cowley; second prize donated by Mr. L. E. Morgan, Blainmore.

Piano special open, first prize donated by Mr. P. Chedoke, Blainmore; second prize donated by Mr. H. Burns, Blainmore. Violin—Grade 1, Junior, first and second prize medals donated by Mr. J. C. Tonks, Hillcrest. Grade 1, senior, first prize donated by Mr. W. L. Evans, Blainmore; second prize donated by Hillcrest school teachers. Grade 2, first prize donated by Hillcrest school teachers; second prize donated by Mr. G. Coupland, Bellevue. Grade 3, first and second prizes donated by Greenhill Temple, Pythian Sisters, Blainmore. Grade 4, first prize donated by Mr. A. Hamilton, Blainmore. Grade 5, first prize donated by Mr. D. McPherson, Blainmore. Violin duets, two first prizes donated by West Wind Girls' Club, Cowley. Junior violin quartettes, four first prizes donated by Mr. W. H. Moser, Pincher Creek. Senior violin quartettes, four first prizes donated by Women's Institute, Cowley.

Vocal—Soprano, first and second prize medals donated by Greenhill Temple, Pythian Sisters, Blainmore. Contralto, first and second prize medals donated by Crystal Dairy, Blainmore. Tenor, first prize donated by Mr. T. O. Davies, Hillcrest. Baritone, first and second prize medals donated by Women's Institute, Cowley.

Citizens—First, Shield donated by Pincher Creek Council. Vocal duets (ladies)—First prize medals donated by Mr. G. A. Vissac, Blainmore. Trio—piano, cello and violin—First only, three medals donated by Mr. and Mrs. J. Cox, Coleman. Violin open—First prize medal donated by Mr. Warburton, Corbin, B.C. Orchestra—Shield, donated by Mr. W. H. Moser, Pincher Creek.

Senior orchestra—Shield, donated by Pincher Creek Council.

Vocal duet—Two first prizes donated by Mr. L. P. Robert, Blainmore. Male Quartettes—Four first prizes donated by F. M. Thompson Company, Blainmore.

Special prize for highest aggregate marks—Cup, donated by Mr. E. Royce, Blainmore.

One hundred dollar donation from

Blainmore town council.

LUNDBRECK NEWS ITEMS

The pleasure of the last Lundbreck card party was dampened by the news that our young pianist, Miss Martha Tustian, was sick and had been taken to the Coleman hospital. Miss Tustian's orchestra has been a great help in making the Lundbreck whist drives and dances so enjoyable and successful and she has the best wishes of her many friends for her speedy recovery.

A meeting of the Lundbreck Golf Club was held on Friday evening, March 26th. Mr. A. Carwell, chairman, opened the meeting, also giving particulars of the satisfactory finances of the club. Officers were elected and committees arranged for the year. Some of the guests needing attention, it was decided to put the course in first class condition at the earliest opportunity in readiness for the season's competitions.

The annual meeting of the Lundbreck hall committee was held in the hall Saturday evening, March 18th. After the business affairs of the meeting had been attended to, it was decided to call a public meeting to give the people of the district an opportunity of expressing their approval of the construction and administration of the hall or criticism, if any. A very successful public meeting was held in the hall Saturday evening, March 27th. Mr. A. N. Cox acted as chairman, Mr. F. J. Smith, secretary. Mr. A. M. Deamore, in a very clear address, put before the meeting how the first inception of the idea of building the hall began a few years ago, the first meetings, the purchase of lots, the stone foundation, and to the splendid building now erected, clear of liabilities, something the district can be very proud of. Several discussions followed. A vote of thanks was extended to Mrs. G. W. Penn for her efficient work as secretary of the hall committee. A resolution was passed by the meeting, expressing the opinion that the hall should be completed, having full confidence in the hall committee, and approval of the work already done.

The last of the winter season's whist drives and dances was held in the Lundbreck hall, Wednesday, April 10th. These were commended with the idea of raising funds to purchase equipment for the running of whist drives and other socials, and have been very successful. The winners during the season were: January 27th, Ladies' first, Mrs. Harry Mun- die, second, Mrs. J. Nelson; consolation, C. Harrington. February 10th, Ladies' first, Mrs. Clara Cleland; second, Elsie Pratt; consolation, Miss Lloyd Nels; gent's first, H. H. Rogers; second, J. Kaye; consolation, R. E. Bent. February 24th, Ladies' first, Miss Ethel Price; second, Miss Ruth Hetherington; consolation, Miss Ruth Cleland; gent's first, G. E. Baines; second, Reggie Tonger; consolation, F. Sifer. March 10th, Ladies' first, Miss Rachel Craig; second, Miss Violet F. Penn; consolation, Mrs. E. M. Holmes; gent's first, E. C. Constick; second, G. B. Wood; consolation, C. Johnson. March 24th, Ladies' first, Miss L. Cuddey; second, Miss Kathleen Porter; consolation, Mrs. Chas. Patton; gent's first, Buster Connelly; second, Wilfred Mundie; consolation, C. A. Eastbrook. April 10th, Ladies' first, Miss Elleen Nelson; second, Miss Bertha Kaye; consolation, Mrs. E. M. Holmes; gent's first, Bert Connelly; second, Carl Linn; consolation, Mattie Wood.

The social committee of the local L.O.O.F. Lodge are planning another balloon and confetti dance to be held in the Lodge Hall on Wednesday, April 28th. Mason's four-piece orchestra will supply the music and the hall will be tastefully decorated for the occasion. A good supper will be served at midnight and altogether an enjoyable affair is anticipated. Keep the date open, Wednesday, April 28.

A FISH STORY

A farmer in Nova Scotia decided to do some blasting. He placed two sticks of dynamite by the barn door while he went into the house for a moment. A pig came along, swallowed the dynamite and in pig fashion rooted around behind a pair of harness mules. One of the mules kicked the pig. The dynamite exploded, killed one mule, tore the harness off the other, blew the barn door off, blinding the farmer, set the barn on fire and almost killed the pig.

A successful "bull" sale was held in Calgary recently. It has been suggested that a similar event should take place in Blainmore, for there's certainly too much of that unnecessary commodity around here.

An important fact about CHEVROLET

A STURDY Banjo-Type Rear Axle is one of the many big car features to be found on the New Chevrolet—it is a husky axle that will handle all the famous power of the Chevrolet motor. Hills—mud—sand—every difficult road condition yields to the unflinching power transmitted through this rear axle.

CHEVROLET

DEATH OF MR. G. WILTON

Friends in Red Deer had word last week of the sudden death in Nanaimo, B.C., of Mr. George Wilton, formerly of Red Deer, who fell dead while in conversation with some fellow-enthusiasts. He was a man of some 62 years of age, of a stalwart figure and ruddy countenance, and was quite active in younger years in cricket. Mr. Wilton was for years bookkeeper with Mr. W. L. Oulmette, Mr. R. C. Brumpton, and with the Cement Builders at Red Deer, and left here about 12 years ago. He was a brother of Mr. Edward Wilton, now at Hull, England, and a cousin of Mrs. R. Towns and Mrs. J. A. R. Choate, Red Deer. Mrs. Wilton, two daughters and a son, Douglas Wilton, survive him, and his loss will be a sore blow to them—Red Deer Advocate.

A new hockey arena will be erected at Detroit at a cost of approximately \$1,750,000, with accommodations for fifteen thousand persons.

A number of Calgary Scotchmen attended a Salvation Army open-air meeting at the corner of Centre Street and Eighth Avenue on Sunday afternoon last, following the announcement in Saturday's newspapers that no collection would be taken.

The man Hughes, who has been in the limelight around Fernie for some time, owing to a certain letter he wrote saying that he intended to commit suicide, and who is serving a sentence in the Fernie jail, is wanted in Lethbridge on several charges and will be taken there as soon as his sentence at Fernie expires.

The Newfoundland sealing steamer Seal, owned by J. A. Farquhar & Co. of Halifax, was blown up while on the way to the ice floes for a second voyage. The Seal was the first arrival this year with a good average catch. She was blown up through an explosion of ammunition. The crew of over eighty men were rescued.

Her Arthur Whitman, pastor of St. Andrew's, Presbyterian church, Macleod, died on Sunday night, at the age of 61 years. Mr. Whitman was former pastor of St. Andrew's at Lethbridge. He is survived by his wife and one daughter, Miss Dorothy. Whitman, who is analyst and dispenser at the Calgary general hospital.

PROSPECTS FOR ALBERTA BRIGHT

WINNIPEG, Man.—A general survey of reports by the Canadian Pacific Railway on agricultural conditions throughout the west reveals a favorable situation. Farmers are pleased with present conditions and speak optimistically on the season's outlook. A mild winter, after general falls of rain last autumn and reasonable snowfall since have assured practically all sections in the western provinces of sufficient moisture to meet spring requirements. Livestock wintered well with less than average loss, because of good weather and available supply of food. Acreage of land prepared closely approximates last year's figures. Totals for each province being as follows:

Manitoba this year 3,399,700, last year 2,643,000; Saskatchewan this year 7,448,485, last year 8,559,485; Alberta this year 3,015,486, last year 2,721,689; grand total all provinces this year 13,863,671, last year 13,919,872.

Ultimate cultivated acreage will be determined, of course, by amount of spring plowing farmers are able to do. Adequate supplies of good seed are available. The Saskatchewan and Alberta departments of agriculture, however, are somewhat apprehensive regarding the possibility of farmers in some sections of those provinces using seed of low germinating quality and have issued warning to farmers to have their seeds tested. No shortage of labor is at present anticipated, the local supply and new arrivals are expected to fully take care of all demands. Winter wheat and rye appear to have come through in fair shape with approximately same acreage as seeded under these crops last year.

On account of light snowfall and comparatively mild weather throughout Alberta, it has been much easier wintering stock in that province. A fair amount of moisture froze in the ground and is now ready for spring needs. Some alarm has been expressed as to quality of seed available particularly in southern Alberta. Government agricultural departments and the Canadian Pacific advising farmers to have all seeds tested for germination. Spring conditions are favorable and it is expected farmers will be on the land within a week. There is a brisk demand for farms to rent, and practically all available lease land is being taken up, principally on the crop share basis. There is no shortage of labor for seeding.

Along the E.D. & B.C. railway the soil is in excellent condition due to abundance of fall rains and snow. Plenty of good seed wheat is available, seed oats and barley being short in some districts will necessitate importation. All districts report sufficient labor to take care of local requirements.

It is a little early to give definite indication of crop prospects in British Columbia. Farmers are somewhat uncertain owing to exceptionally early spring. Winter was mild, with no probability of serious frost damage to fruit trees. As a result of early season, increased acreage of vegetables throughout the province is looked for. Fruit trees are fully two weeks ahead of average year and a severe frost would have a bad effect. Generally speaking the trees that escaped winter injury last year show indication of bearing good crop.

Sir Richard Squires and ex-Premier Cashin, of Newfoundland, have joined forces and formed a new political party.

Mr. Alex. Cameron has left Coleman for Wyndell, B.C., to spend the summer on his ranch. Mr. Cameron has fully recovered from his recent illness and expects to put in a real summer's work on the fruit farm.

Epitaph

Here lies the body of Joshua Straw, The saddest sight you ever saw. He kissed his girl while on a frolic And died next day of painters' colic.

THE WORLD'S NEWSPRINT SUPPLY

Few Canadians realize that by the end of 1926 Canada will be producing over one-third of the world's newsprint and 46 per cent of the raw material entering into newsprint manufacture. Canadian newsprint production has been steadily increasing and in 1925 our total production about equalled that of the United States, returns for the first two months of the current year indicating a distinct leadership on the part of Canada.

Canada's programme of expansion involves the installation of eighteen new machines during the present year. This provides for an increase of 1715 tons in daily capacity, bringing the 1926 production up to 1,750,000 tons and making possible a two million ton production in 1927. No new installations are contemplated for the industry in other producing countries with the exception of one machine in England and one in Finland.

Canada produced 1,522,000 tons of newsprint in 1925. Canadian pulp and pulpwood were used in 612,000 tons, or 40 per cent of the newsprint manufactured in the United States, making a total of 2,134,000 tons; or 47.7 per cent of the world's estimated production coming directly or indirectly from Canadian sources. Allowing for the proposed new mill coming into operation, the world production of newsprint in 1926 is estimated not to exceed 5,250,000 tons, of which Canada will produce 23.4 per cent, while her raw material will enter into 45 per cent of the total.

A review of the international trade in pulp and paper during 1925 shows a distinct change in direction, which gives promise of a broader market for Canadian paper in future. Until recently the mills in Germany and Scandinavia have been operating at capacity and selling a substantial part of their products overseas. The opening of continental markets due to the economic recovery of Europe diverted this trade to these neighboring countries, with the result that the United States, South Africa, South America and Australia were forced to look elsewhere for their supplies. Canada was able to meet these requirements, keeping her new mills in operation and maintaining the existing price level. The United States consumption has increased about 5 per cent per annum during the past three years while her production has not kept pace. South America and South Africa are growing in commercial importance every year. Our export of newsprint to the former increased from almost nothing in 1925 to over 25,000 tons in 1925. In the last three years the exports to South Africa have increased 240 per cent.

Previous to 1920 Canada was competing with England for the Australian market, but on account of a preferential tariff granted Great Britain this market was lost. The negotiation of a trade treaty with Australia has made it possible for Canada to again compete with England for that market, her paper like England's entering Australia duty free as against a three per cent per ton tariff imposed on paper from other countries.

Little Boy (to Dad)—Say, Dad, the teacher in physics asked us to use "auto-transformer" in a sentence. Can you think up one for me?

Dad—Yes. Your Ma spends too much money and I think we auto-transformer.

George Stevens, until recently resident manager of the Greenhill hotel, left here by Tuesday morning's train for Vancouver, where we understand he has accepted a position. Mrs. Stevens and children will join him later.

Some local concerns are paying through the nose for their printing by heeding to the bill being peddled by representatives of foreign houses instead of trying to deal fairly with the local print shop.

All babies are bounding, because of their heart-line inclination.

Honesty, like a honest woman in a street car, stands up longest.

Inspector Field of the R.C.M.P., was down from Fernie on Tuesday.

The regular semi-monthly meeting of the town council will be held on Monday night next.

Some of the apricot trees at Fernie were in bloom before the end of March.

Dead men tell no tales. Consequently many an attractive widow is able to marry again.

James Hurley, a prominent member of the B.P.O.E., was killed in an auto smash at Trail, B.C.

The annual payroll of the Anglo-Newfoundland Development Company, the largest pulp and paper manufacturing concern in the world, amounts to upwards of three and a half million dollars. In the neighborhood of six thousand men receive steady employment.

"is good tea"

Over 30 years a standard wherever good tea is liked.

Stop The Flood

The problem of erecting an effective dam to stem the flood of United States publications, already large and steadily rising, pouring into Canada and tending to Americanize our social thought, national ideals and politics, has for some time occasioned serious consideration on the part of Canadian publishers, and is now giving concern to people who are in no way identified with the publishing business.

A large section of the Canadian people not strongly opposed to restrictive policies based on the protective principle, while others dislike the idea of placings a ban on the free interchange of reading matter, and all are more or less averse to the adoption of any policy which might be interpreted as unfriendly by our next door neighbors. But, as pointed out in last week's article in this column, the situation has become a very serious one not only for Canadian publishers, but for Canada as a national entity.

Prohibition of United States publications is not to be thought of, except in the case of those which overstep the bounds of morals and decency in their frequent attempts to excite the passions and appeal to the morbidness of their readers. The United States should itself place a ban on these, and if it fails to do so, there is no reason in the world why Canada should not protect itself by taking such action. Such publications are not necessary to any people. They serve no good or useful purpose, and are wholly harmful.

A suggestion recently advanced and now being widely discussed is that, while not placing any obstacle in the way of United States papers and magazines entering Canada, a tax should be imposed on the advertising matter contained in them. Canada is used as a "dumping" ground for these magazines and papers largely for the purpose of increasing circulation, thereby boosting advertising rates and revenue for the publishers and providing an avenue through which United States manufacturers and others can attractively place their wares before the Canadian public. These magazines are sold in Canada at a price considerably below the cost of production, and they are carried annually by the Canadian post office department at an actual loss to the Government.

That these American publications are circulated in Canada solely in order to obtain additional distribution of these advertisements is fairly well demonstrated by the fact that in their literary contents little or no attempt is made to cater to the views and tastes of Canadian readers. They are "American," in the United States acceptance of that word, through and through.

Take the current issue of one of the weekly publications which has a very large circulation in Canada. It consists of 240 pages, printed on book paper and each copy weighs over a pound and a half. It retails for five cents, or less than the cost of the white paper. Of the 240 pages, 94 are devoted to reading matter and illustrations all, with the exception of the front cover, printed in black ink. The other 146 pages are advertisements, and 64 of these are full page advertisements printed in all the colors of the rainbow, and then some—reds, blues, greens, purples, browns, yellows, whites, and various shades and combinations of these colors. In a word, this magazine is mainly an advertising catalogue, and a beautifully attractive one at that, of United States goods.

If all this advertising matter entered Canada as a catalogue, or as straight advertising matter, thousands of dollars would have to be paid on it in Customs duties, but coming in under the guise of a magazine it is practically "free." And in addition the Canadian post office distributes a large percentage of it for a purely nominal sum. It would cost these United States advertisers millions of dollars annually to themselves print and distribute this matter in Canada.

Therefore, it is argued, and with reason, that while United States magazines should still be allowed free entry into Canada, a tax should be imposed on the advertising matter contained in them somewhat comparable to the amount that would be collected if such advertising was sent in as such and not as part of a magazine.

The effect, of course, would be a decided decrease in the number of such publications sent into Canada because the publishers, having to pay this tax, would be obliged to sustain the loss, or increase their subscription price in this country to cover it and circulations would automatically drop. If the tax did not have this effect, then it would at least increase our national revenues.

Canadians may naturally object to paying largely increased prices through Customs duties imposed on foreign-made articles they require to purchase, and on Canadian-made goods the price of which is advanced under cover of tariff protection, but they are not likely to object to a tax being placed on the advertising propaganda of United States concerns canvassing for business in the Dominion.

Freak Linguistic Case

A freak linguistic case came to light at Honolulu recently in the court of domestic relations. Robert Brown, born there and now in Canada, did not speak the language of Hawaii; that is, English, nor can he speak Portuguese, the language of his forebears. He is a fluent speaker of Japanese, however. He has lived with a Japanese couple since his parents deserted him.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

More Illiterate "hod-carriers" reach the top of the ladder than men with college degrees.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Upper Air Currents

Scientist Says Region of Upper Strata Has Tropical Climate
Discussion of the observation of meteors, made during a lifetime by W. F. Denning, the English amateur astronomer, has revealed a totally new aspect of the upper air, according to Professor H. R. Turner.

"It has been known for some time," says Professor Turner, "that the temperature, which falls rapidly as we ascend for the first few miles, ceases to fall about eight miles up. This is beyond the reach of aeroplanes and balloons, but not beyond that of exploring toy balloons. Even their information, however, has a limit short of twenty miles."

"Meteorologists have now extended our knowledge up to fifty miles, and have shown that the atmosphere becomes actually hotter in a certain region of the upper strata; the climate becomes tropical as regards temperature. We may confidently expect important consequences to follow this new discovery."

SIXTEEN YEARS USE OF BABY'S OWN TABLETS

Has Shown One Mother There is Nothing to Equal Them

A constant use of Baby's Own Tablets for their children has proven to thousands of mothers that they are without an equal for babyhood and childhood ailments. One mother, Mrs. C. W. Jackson, R.R. 1, Clifford, Ont., writes: "We have used Baby's Own Tablets ever since our first baby was born sixteen years ago. We have five healthy children, and the Tablets is the only medicine they have received in their early years. The Tablets is one and a half years old, is walking and talking and weighs 25 pounds. Baby's Own Tablets is the only medicine he has ever had."

Baby's Own Tablets are guaranteed to be absolutely safe for even the newborn babe. They are free from opiates and narcotics; act as a gentle laxative on the bowels, and thus relieve constipation and indigestion; break up colds and simple fevers and make baby healthy and strong.

You can get Baby's Own Tablets through your druggist or direct by mail at 25 cents a box from The Williams Medicine Co., Brockville, Ont.

Through Service For Steamship Passengers

Canadian Pacific Railway, Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on Tuesday night, April 20th, and will stop at the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a few cents a bottle, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Lloyds Have Difficulty Estimating Auto Risks

Insurance Kings Admit Startling Increase in Accidents

A legal battle over the payment of large claims by Lloyd's underwriters for taxicab accidents in New York City has been averted by a compromise in London between Ernest Miller, treasurer of the Yellow Taxicab Corporation and Lloyd's representative.

The hazards of automobile accidents in America have amounted so rapidly with the increase of motor traffic during the years immediately following the World War that even Lloyd's had difficulty in estimating the risks, according to Mr. Miller.

Difficulties ensued over the payment of claims, and the Yellow Taxicab Corporation started suits in British courts against nineteen British underwriters. Upon intimations that a settlement was possible, Mr. Miller went to London. The claims were compromised at a figure understood to be \$265,000.

The Chinese use safety first method in shoeholts. A horse, the mild-mannered beast being nearest straight-jacketed for the occasion.

"Keep inside those fire lines, there!" "But I'm a reporter." "Well, if you want to know anything about the fire, read tomorrow's paper."

A man is sometimes compelled to put up with those he does not love—pawbrokers, for instance.

Minard's Liniment for dandruff

W. N. U. 1624

Builds up weak bodies

"Headaches, nervousness and sleeplessness were free from me. I weighed 100 lbs. and lost sleep normally. I was cured of my nervousness." Mrs. James Smith, 174 Champlain Ave., Montreal.

From Mother Nature's storehouse we have gathered the roots, herbs and barks which are compounded under the famous Tanlac formula, to make Tanlac.

If your body is weak and undernourished, if you can't sleep or have stomach trouble or burning rheumatism, just try our new and quickly Tanlac can help you back to health and strength.

Don't delay taking Tanlac any other day. Stop at your druggist's and get a bottle of this, the greatest of all medicines. Tanlac—Tanlac—Tanlac Pills for constipation.

England Talks To Chicago

Message Broadcast From Rugby Was Relayed By Phone

His telephone he was started to hear the operator calmly say: "Hold the line for Rugby, England, please."

A moment later he heard the voice of his son-in-law, Arthur A. Oswald, whom he knows to be in England.

For twenty minutes the conversation continued, Mr. Oswald, who designed and built the Rugby radio telephone station for the British Postal Service, telling his father-in-law of the success of the radio.

The message, broadcast from Rugby, was picked up by an unknown station on the Maine coast and relayed by telephone to New York and thence to Chicago. It was reported to be the first time a telephone conversation had been held between Europe and Chicago, although such communication had been established with cities on the Atlantic coast.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

Those who seek permanent relief from the grinding pains of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerville must have been what I needed, because it cleared up my trouble quickly."

If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c bottle of Nerville today; it will make you well quickly.

Advertising His Profession

A campaigner was constantly interrupted by a man in the crowd who kept shouting "Nerville." After the speaker paused and fixed his eyes on his tormentor. "If the gentleman who persists in interrupting," he said, "will be good enough to tell me his name, I will surely shout his name as loudly as I can."

He said at his calling, "I am sure we shall be all very much pleased to make his acquaintance."—Christian Register.

There are 9,577 electric signs in New York City.

THE MURINE EYES

IRITATED BY SUN, WIND, DUST & CINDERS
RECOMMENDED & SOLD BY DRUGGISTS & OPTICIANS
BOTTLES FOR SALE BY ALL DRUGGISTS

Hemorrhoids

That Shockingly Painful Affliction

There are few of us who have not suffered from this trouble, but little do we realize that in most cases it is due to our own neglect.

Medical authorities agree that Hemorrhoids (piles) could be largely avoided were one to assist nature by observing nature.

Hemorrhoids are most frequently brought about as a result of constipation. The natural nature by assuring an easy passage of the waste matter, and this can best be done by the use of Nujol.

Nujol simply softens the waste matter, and thus permits regular, easy elimination, without any overtaxing of the intestinal muscles.

Nujol, the scientific internal lubricant, replaces the lack of nature's lubricant, and obviates the possibility of constipation.

Ask your druggist for Nujol today and remember—look for the name "Nujol" in red on both bottle, label and package.

House Adopts MacPhail Motion

Resolution to Produce Productive Work For Penitentiary Inmates

After brief debate, the house at Ottawa adopted a resolution moved by Miss MacPhail that the administration of penitentiaries be amended to provide:

(1) Sufficient productive work to keep the inmates employed;
(2) That a share of the proceeds go to dependents, and in case of no dependents such share to be held in trust until released.

Miss MacPhail moved a similar resolution last session, but it was talked out.

Hon. Ernest Lapointe, minister of justice, supported the resolution, which was adopted without opposition amid applause.

Miss MacPhail explained it was her purpose to provide only for the production of goods needed by the Federal Government.

The resolution had been presented last year and had received very favorable comment. She believed it would have been adopted if the 5 o'clock adjournment had not arrived too soon.

"DIAMOND EYES" COLOR THINGS NEW

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple that even a woman can tint her delicate shades of dye rich, permanent colors in lingerie, silks, ribbons, skirts, sweaters, dresses, coats, stockings, drawers, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

A Queer Family Group

Children, Deer and Cat Live Together in Kansas Zoo

Perhaps the queerest family group living in the Atchison Zoo, Kansas, is a pen five Dixie, buck deer, six colts, and a big yellow alley cat. At night the deer curl up in its shelter and the cat and chickens, however, close proximity absorbing the warmth from the deer's body.

At feeding time the deer pushes its muzzle into the feed trough and then lets the chickens pick the bits of bran and grain from its face. And the cat has forgotten how to wash its face and hound.

Dixie gives the cat a thorough tongue bath regularly.

London's Oldest Industry

Whitechapel Foundry Has Been Casting Bells For Over 600 Years

The oldest industry in the city of London is the making of church bells. A foundry in Whitechapel has been casting bells for over six hundred years, and is still so supreme that the whole world sends to it, or to another almost equally old firm at Craydon on the outskirts of London, when a reliable and true peal or carillon is to be constructed.

The ease with which corns and warts can be removed by Holroyd's Corn Remover is its strongest recommendation. It seldom fails.

Saw Queen Victoria's Wedding

London Woman Aged 101 Remembers Many Historic Incidents

The oldest inhabitant of the city of London is Mrs. Emma Oliver, aged 101. This, however, does not mean that she is the oldest woman in the vast metropolis of London, but that she is the oldest in the "City," which is the old London, south and the original nucleus of London.

Among the historic incidents she has seen are the wedding of Queen Victoria in 1840, and the Duke of Wellington's funeral. She also witnessed in 1864 the hanging of five pirates at Old Bailey.

Northern Ireland Has Many Autos

Northern Ireland, although better served by railways than the Irish Free State, has an automobile for every forty inhabitants. In Southern Ireland there is only one motor vehicle for every eighty inhabitants.

Toasting bread converts the starch into a more easily digested substance, dextrin.

An optimist can derive much pleasure from thoughts of troubles which do not trouble him.

First impressions are seldom correct—so the proofreader tells us.

MACPHAIL'S STOVE POLISH

QUICK BRILLIANT LASTING

Liquid Paste "Restoring" to its original lustre

The Cape Polishes Ltd. Hamilton Ont.

To Advertise Canada Abroad

Special Canadian Supplement of the Christian Science Monitor

What Canada needs at the present time more than anything else is advertising in those other countries of the world where there is capital looking for investment and people looking for opportunities to get away from forbidding conditions and establish themselves where they will have a new chance in the new world.

This country has got everything that the surplus men and the surplus money of other nations may be looking for—everything in the way of opportunity for the investment of capital and where landless people can acquire homesteads and set up enterprising communities.

The time is ripe for Canada to present her case to the world and in securing this service and help, we believe the special Canadian supplement to the Christian Science Monitor which will be issued next month will do important service. There will be an issue of 350,000 copies, of which 100,000 will be available in the United States, 50,000 in Europe and Australia, and 100,000 in Canada, largely for mailing abroad.—Toronto Star

The Best Medicine I Have Ever Taken

So Says Mr. Arthur Simmons Of Dodd's Kidney Pills

P.E.I. Man Used Them For Sore Back and Headaches

Miscouche, P.E.I.—(Special)—That Backache and Headaches are caused by weak kidneys is what the right way to treat them is to use Dodd's Kidney Pills. It is again shown by the experience of Mr. A. Simmons, a well-known and highly respected resident of this place.

"Dodd's Kidney Pills have been a great help to me. Before I started to take them I had severe pains in my back and suffered with terrible headaches. I felt well after I had taken the first box and now I am taking them all the time. They are the best pills I have ever taken."

The work of the kidneys is to strain the impurities from the blood. It is necessary work if the body is to be kept healthy. It is a trying work, for the kidneys are constantly in contact with the acids of disease.

Find Ammunition Cache in Dublin

Two tons of high explosives, 353 live bombs and hand grenades, 5,000 spare parts, bombs, 5,000 pounds of rifle ammunition and 10,000 detonators in addition to bombing machinery, have been found in a stable in North King Street, Dublin.

It is said that woman shares man's grief, doubles his joys and troubles his expenses.

LEG SORES

ARE CURABLE. If you suffer from Leg Sores or Venereal Ulcers, I will send you ABSOLUTELY FREE a copy of my famous book that will show you by using my remarkable medicine, treatment. It is different from anything you ever heard of, and the result of over 20 years' experience. Simply send your name and address to: W. H. Miller, 211 East 11th Street, Kansas City, Mo.

WANTED

WANT TO HIRE FROM OWNER of good farm or ranch for sale. W. H. Miller, 211 East 11th Street, Kansas City, Mo.

At the first sign of kidney or bladder trouble take

GIN PILLS

50¢ a box at all druggists

CANADIAN BOARD OF TRADE COMES INTO EXISTENCE

Ottawa.—An organization, the Canadian Board of Trade, which promises to exercise a distinctly far-reaching influence in promoting unity throughout Canada and rendering the (industrial) nations towards provincialism, formally came into definite existence with the opening of the head office in Ottawa in charge of Col. J. L. Regan, C.M.G., with S. B. Gandy, of Toronto, to whom is given credit for initiating this movement, supervising the final plan.

The new organization is the direct outcome of the conference held in Winnipeg last year attended by representatives of 40 boards of trade throughout Canada. At that time a committee was appointed to complete definite arrangements.

At a meeting in Montreal it was decided to locate at once the head office in Ottawa and the services of Col. J. L. Regan, C.M.G., were enlisted as permanent secretary-treasurer. Col. Regan, as is well known, is general manager of the Canadian Wholesale Dry Goods Association, was formerly associated with an auditing firm and has had a wide experience in commercial activities. During the war, Col. Regan was deputy postmaster-general of the Canadian Expeditionary Force.

Disastrous Fire Sweeps Banff Springs Hotel

North Wing Destroyed and Loss Will Be Nearly \$2,000,000

Banff.—A disastrous fire, which apparently broke out in the kitchen of the north wing of the famous Banff Springs Hotel, destroyed the wing, a four-story structure, but the combined efforts of the townspeople of Banff, a large force of railway workmen and fire apparatus, rushed from Calgary saved the south wing and much of the valuable furniture in the section destroyed.

No estimate of the damage has been made by officials of the Canadian Pacific Railway, which owns the hotel, but it is believed it will be near the \$2,000,000 mark. In addition to the complete destruction of the north wing, considerable damage resulted to the newer central section. A stone tower situated between the two wings acted as a barrier to the flames which at times threatened to sweep the entire building.

Immediate steps will be taken to rebuild the section destroyed and to repair damage to the central tower and other sections of the hotel.

Expedition Has Left For Dutch New Guinea

Party Led by California Professor to Seek Pigmy Tribes

Batavia, Java.—The expedition headed by Prof. Matthew F. Stirling, Berkeley, Calif., sailed for Sourabaya to explore the unknown interior of Dutch New Guinea.

"If pigmy tribes are in New Guinea we will find them," declared Stanley A. Gensberg, historian of the expedition. He said they hoped to bring back interesting material, not only for science, but for the world in general. "For New Guinea is the last of the really unexplored countries of the world."

An airplane will be used for flying over the jungles and mountains.

Passengers Had To Be Vaccinated

Winnipeg.—A train conveying a patient afflicted with smallpox, was side-tracked before it reached the city limits while every passenger and member of the train crew was compelled to submit to vaccination. The train operated over a branch line in Manitoba.

The smallpox case was removed to a hospital in Winnipeg, where he died.

Nurses Want Standard Raised

Saskatoon.—The standard of nursing in Saskatchewan must be raised, and that, together with the protection of the profession, was the object of the Saskatchewan Registered Nurses' Association, Miss S. A. Campbell, president of the association, said at the annual meeting here. Miss Campbell made a plea for more advanced and uniform training for the profession.

Decrease in British Unemployed

London.—The number of unemployed in Great Britain in the first week of the 1,000,000 mark. There has been a consistent drop evident for many weeks, and last week a decrease of 26,000 to 1,014,000 was noted.

Last Week in The Alberta Legislature

Outlet to Coast For Peace River Country Discussed

Edmonton.—A statement of Alberta's situation with regard to the Edmonton, Dunvegan and British Columbia Railway was given to the provincial house by Premier Brownlee.

The interest of the province in the road at December 31, 1925, was \$19,650,543, and under present conditions was increasing at the rate of \$350,000 yearly. The province had endeavored to sell the railway, but without success, and the offer for leasing received from either of the transcontinental railways promised only nominal rentals, which would still leave the financial burden to be borne by the province. The situation was further complicated by an offer by the province by the Royal Bank. The bank had originally asked \$20,000,000, but had ultimately reduced the sum asked for to less than \$15,000,000, though they had refused to allow the government to make the amount public, unless they first accepted the offer. The government, however, would not pay more than \$10,000,000.

Premier Brownlee considered that this road was a responsibility of the Dominion Government. Premier Mackenzie King, prior to the last Dominion election, speaking at Edmonton, had declared that the provision of a coast outlet for the Peace River country was the spearhead of the Dominion Government's policy. To construct a coast outlet it would be necessary to take over the E. D. & B. C. He considered it would be a blot on the history of Canada if the Dominion made provision for the completion of the Hudson Bay Railway without also providing the Peace River country with an outlet to the coast. He did not oppose the completion of the Hudson Bay road, but said, "If you build the one, build the other." Immediately after the close of the present session of the provincial house, he said the minister of railways was going to Ottawa to urge this view on the Dominion Government.

In the meantime they would continue the present leasing arrangement with the C.P.R.

In making his promised statement on the sum of \$5,320,000 alleged to have been spent under the previous administration for printing never completed, and in which Geo. P. Smith, former minister of education, was acquitted on a charge of theft, the premier said that the government had taken every possible precaution to prevent politics being interjected into the case. The crown counsel, A. L. Smith, K.C., Calgary, took all responsibility for the manner in which the case was presented, and had followed the best English and Canadian precedents in not prosecuting Deasdale and Jefferys, whom he regarded as merely pawns in the drama.

The government has instituted a civil case against Geo. P. Smith. With the view of regulating oil development in the province, a bill giving the lieutenant governor-in-council power to impose regulations has passed the committee stage without discussion.

A bill giving the department of education power to print and dispose of school books to pupils and others was given the unanimous consent of the house in committee. It is expected that this will mean a big saving to pupils and school boards in the printing of school books.

Increase in telephone rates is forecast in the annual report of the deputy minister of telephones. It is stated that the rates in Alberta are lower than anywhere else on the continent, and that proper allowance is not being made for depreciation.

Chinaman Robbed By Thugs

Edmonton.—Accused by two thugs as he was proceeding home, Wong Kong Yee, a Chinaman, was assaulted and knocked unconscious after a severe beating up, and robbed of a sum of \$135.50 which he was carrying in his pockets at the time. The thieves also deprived the Chinaman of his eyeglasses and coat and vest.

Will Fly Around World

Montevideo, Uruguay.—Major Larrea Borge, the Uruguayan aviator, has gone to Europe to purchase aeroplanes for the commencement of a world flight late in August.

The Uruguayan Government is sponsoring the venture.

Fishing Boats Capitalize

Tokio.—A message from Hokkaido, the northern island of Japan, reports that more than 80 persons are missing as the result of the capsizing of ten fishing boats in a storm.

Queen Writes For Movies

Nauen.—Queen Marie of Rumania has signed a contract to write a series of thrilling movie scenarios for an American film concern, according to a report from Paris.

Bright Outlook For Western Farmers

C.P.R. Survey Shows Agricultural Conditions Are Favorable

Winnipeg.—Agricultural conditions in Western Canada, according to a survey just completed by the Canadian Pacific Railway, promise a favorable outlook. Following the mildest winter on the prairies in many years, farmers are rapidly getting their land in shape, and according to the report, seedling may be started in the lighter soils, within a week.

The general rainfall of last autumn and reasonable snowfall since, have assured practically all sections in the western provinces a sufficient moisture to meet spring requirements.

Area under cultivation closely approximated last year's figures, the report states. By provinces the acreage is shown as follows: Manitoba, this year, 2,399,700; last year, 2,643,000.

Saskatchewan, this year, 7,445,485; last year, 8,665,183.

Alberta, this year, 3,015,482; last year, 3,721,686.

The aggregate is 12,865,671 acres, compared with 13,919,372 acres a year ago. The report adds that the ultimate cultivated acreage will be determined by the amount of spring plowing farmers are able to do.

SEES ENORMOUS ADVANTAGES IN HUDSON BAY LINE

Toronto, Ont.—Should the Hudson Straits prove the menace to navigation from Hudson Bay to Europe, which some believe it to be, the Hudson's Bay Railway can still be a profitable proposition, Senator O. D. Robertson, former minister of labor, has declared in an interview with the Star here. It will enable the iron ore deposits of Belcher Islands to be tapped and provide a route whereby that iron can be taken to the coal fields of Alberta, he pointed out.

The iron ore deposits around Lake Superior, Senator Robertson points out, are taken by water and rail to Pittsburgh, and the Pennsylvania coal fields. A similar transportation plan will take Belcher Island iron to the coal fields of Alberta and make Alberta what is destined to become, the industrial area of Western Canada.

Senator Robertson pointed out to the Star that should the straits prove too dangerous, western wheat can reach Europe via the Hudson's Bay Railway to Port Nelson, thence by the sea route to Moose Factory at the south end of James Bay, and by rail to Pittsburgh, and the Pennsylvania coal fields. A similar transportation plan will take Belcher Island iron to the coal fields of Alberta and make Alberta what is destined to become, the industrial area of Western Canada.

CHILLED BEEF EXPORT TRADE IS ADVOCATED

Toronto.—A chilled beef export trade for Canada and a steady stream of live cattle to the English market was advocated in the report of the Ontario agricultural inquiry committee, which was tabled in the Ontario Legislature.

In presenting the report, Dr. David Jamieson, chairman of the committee, pointed out that there should be a greater demand in England for Canadian cattle, which were reckoned as good as any in the world by the British feeders. The trouble was that the British feeder was not assured of a steady stream of cattle from Canada. He was critical of the efforts of W. F. T. Preston, appointed by the Federal Government to investigate Canadian cattle shipments, stating that the mission had cost Canada \$35,486 and little or nothing had been accomplished.

The aggregate is 12,865,671 acres, compared with 13,919,372 acres a year ago. The report adds that the ultimate cultivated acreage will be determined by the amount of spring plowing farmers are able to do.

Questions Use Of Mounties In B.C.

Matter Placed Before House by Conservative Member For Victoria

Quebec.—Hon. S. E. Feltin (Conservative, Victoria), in a question placed on the order paper of the House of Commons, asks: "Does the Government of Canada still believe there is any necessity for maintaining the B.C.M.P. in British Columbia, having regard to the fact that the customs service are able to deal with the narcotic problem on the waterfront; also having regard to that work is also covered by the drug squads of the Vancouver and Victoria city police, also by municipal police throughout the province, as well as the provincial police, which covers the whole province, and has offices and large staffs in the principal cities of the province?"

Brisk Demand For Farm Labor

Workers Coming to Saskatchewan From Manitoba, Alberta and B.C.

Regina.—A brisk demand for farm workers is reported from the district employment service office throughout Saskatchewan and labor is being imported from British Columbia, Alberta and Manitoba points almost daily. Up to March 1 this season a total of 263 farm workers have been brought in.

In addition, a large number of Scandinavians, Danish and English immigrants have been placed on farms for spring and summer work.

Prince Is Recovering

London.—The Prince of Wales was sufficiently improved from his recent aural operation to undertake a motor trip to Sandwick. He will stay at a small house on Sandwick Bay, and plans during his visit to play golf on the nearby links.

His assailant, believed to be an Irishman, the Hon. Violet Albina Gibson, the 60-year-old sister of Baron Ashbourne, a resident of Campagna, France, was seized by carabinieri and dragged to a place of safety, for in an instant the thousands who had gathered to acclaim the premier were in a frenzy of excitement and rage.

With Mussolini, at the time, were Professor Roberto Alessandri, and the noted surgeon, Raffaele Bastranelli, and they rushed to his aid. It was Bastranelli who dressed the wound and later he gave a statement, saying: "The premier was wounded by a firearm, the bullet perforating both nostrils, but without grave results."

Notwithstanding his injury Mussolini desired to enter his automobile but he was induced to return to the capital. He was perfectly tranquil, seemingly not thinking of himself, and was only anxious that no grave consequences among the people should arise from the attempt.

"I desire that the country be not alarmed," he exclaimed, "I do not want reprisals. It is my will."

Alberta Pacific Sold To Montreal Company

Business Will Be Carried On Under Old Name

Calgary.—At a special meeting shareholders of the Alberta Pacific Grain Company unanimously ratified the sale of the assets of the company to the Royal Securities Corporation of Montreal.

It is said the transaction involves more than six million dollars.

"The purchasers of the assets will, it is understood, form a new company by the same name and continue the operation of the Alberta Pacific Company. It is stated that the present employees of the grain company will continue in their positions under the new ownership."

It is understood the transaction will be completed within the next few weeks.

Spillers, British milling interests, were among the principal shareholders in the Alberta Pacific, having purchased a big interest some time after they started their Canada venture.

Big Development Plans

Company Will Spend Fifteen Million In Film Mining Area

Winnipeg.—A development scheme involving expenditure between \$10,000,000 and \$15,000,000 will be launched by the Film Film Mining area of Northern Manitoba, as soon as a railway line is built into the area and tests for treatment of ore completed, according to J. P. Watson, head of the Mining Corporation of Canada.

The plans of the company, Mr. Watson announced, provide for the establishment of a open office, erection of a smelter with a capacity output of 2,000 tons of ore a day. It is also proposed to develop 20,000 horsepower on the Churchill River.

British Diplomat Dead

Sir John Brown Noted For Achievements in Far East

London.—Sir John McLeavy Brown, noted for his career in the British diplomatic service in the Far East a generation ago, is dead, aged 84. His most notable achievement in the Orient was his successful handling of diplomatic affairs with the Russian admiral, Alexoff, when the latter was first sent to Korea to attempt the peaceful financial annexation of that kingdom to Czarist Russia a quarter of a century ago.

From 1898 to 1909 he was head of the customs and controller of finance in Korea. His career in the Far East began in 1881.

ATTEMPT MADE TO ASSASSINATE ITALIAN PREMIER

Rome.—Bento Mussolini, strong man of Italy, was near to death April 7 as he emerged from the Congress of Burgundy. He had raised his arm in salute to the thousands of the multitude, when a woman pressed a revolver to his face and fired.

At that very moment, Mussolini, as is his habit, threw back his head, the bullet passed through his nostril, and with a quick step backward, the Fascist premier put his hand to his face, and drew it away covered with blood.

His assailant, believed to be an Irishman, the Hon. Violet Albina Gibson, the 60-year-old sister of Baron Ashbourne, a resident of Campagna, France, was seized by carabinieri and dragged to a place of safety, for in an instant the thousands who had gathered to acclaim the premier were in a frenzy of excitement and rage.

With Mussolini, at the time, were Professor Roberto Alessandri, and the noted surgeon, Raffaele Bastranelli, and they rushed to his aid. It was Bastranelli who dressed the wound and later he gave a statement, saying: "The premier was wounded by a firearm, the bullet perforating both nostrils, but without grave results."

Notwithstanding his injury Mussolini desired to enter his automobile but he was induced to return to the capital. He was perfectly tranquil, seemingly not thinking of himself, and was only anxious that no grave consequences among the people should arise from the attempt.

"I desire that the country be not alarmed," he exclaimed, "I do not want reprisals. It is my will."

Shortly afterwards he reappeared before the crowd who cheered him and would have carried him shoulder high. Mussolini was in fact in a bad way. He was 15 years older. Signor Amendola was war minister in Italy in 1922 and later minister of the colonies.

OVER-SUPPLY OF APPLICANTS FOR CANADIAN FARMS

London.—Six of the principal steamship companies that handled migration from these shores, the Canadian Press has been informed, have notified their agents throughout Great Britain and Ireland that the Canadian Government has indicated that already, there is a considerable over-supply of applicants for farms this year, there being a limit to the number of farms preparatory for immigrants in any one year.

It has been found necessary, indeed, to ask many families to defer sailing until 1927. It is stated, but there will be no cancellation of the acceptance of any family for immigration to the Dominion. Only the sailing will be postponed.

Ottawa.—This has reference only to the 8,000 family settlement scheme. It was stated at the department of immigration and colonization, with regard to the question of farms, that there is a considerable over-supply of applicants for farms this year in Canada.

Blockade Claim Ridiculed

Britain Would Not Consider Suggestion Of U. S. Senator

London.—It is considered as an apt illustration of Uncle Sam's claim to be the Good Samaritan of the world, the suggestion of Senator Borah, an chairman of the foreign relations committee of the senate, that the United States should present Great Britain with a bill for all the damage done to American trade by the British blockade of Germany during the war. This little pleasantry is considered the more amusing when it is remembered that the war was greatly prolonged by the difference paid by British statesmen to American susceptibility.

When it is seriously made no British Government will entertain it, for if they did they would not long survive the indignation of the British people. A fleet of exorbitant claims on top of what they already pay would fairly break the camel's back of British patience; and America, by claiming too much, might end in losing even that which she hath.

Physicians Test Out Combined Inventions

Possible to Get Accurate Record of Human Heart Beats

Chicago, Ill.—Staff physicians of St. Luke's hospital have combined two modern inventions, the radio-telescope and the electro cardiograph in a device which they have made. It is possible for a physician to get an absolutely accurate record of human heart beats.

The stethoscope's function is to amplify heart sounds. Hitherto it was pointed out, every physician who listened to the heart with a stethoscope when the sounds were filtered, disagreements in diagnosis resulted. The cardiograph has been attached to the stethoscope in such manner that the heart's waves are recorded mechanically, thus doing away with a large amount of error.

Dairy Pool Incorporated

Saskatchewan Has First Organization Under Agricultural Co-operative Marketing Act

Regina.—With an objective of 25 per cent of the butterfat handled by the creameries of the province last year, the Saskatchewan Dairy Pool has been incorporated and officers and a provisional board of directors set up.

The total production of butter by the creameries last year was 16,000,000 pounds and before the pool can operate it will be necessary to secure signatures of sufficient producers to provide for an outturn of one-fourth of this amount, the closing date for the sign up campaign being set as November 20.

The Dairy Pool is the first body to be incorporated under the new Agricultural Co-operative Marketing Act.

Make Recommendations

Ottawa.—Representative of railway brotherhoods made recommendations to Premier King and members of the cabinet including requests for restriction of the powers of the senate, support of old age pensions, increase of exemption under the income tax, and elimination under the income tax, and income taxes.

Foe of Fascists Is Dead

Cannes, France.—Giovanni Amendola, chief of the opposition to the Fascist Government in Italy, is dead here. He was 55 years old. Signor Amendola was war minister in Italy in 1922 and later minister of the colonies.

Allan Cup Defenders

The Port Arthur team, Dominion champions and holders of the Allan Cup, photographed outside the C.P.R. Windsor Station on their arrival at Montreal to defend their trophy against Toronto Varsity, amateur champions of Eastern Canada. Port Arthur travelled on the Imperial Limited from their home town, and after a thirty-hour trip were in fine condition for the crucial game, a sterling tribute to the smoothness of travel they experienced over C.P.R. lines.

Items of Local and General Interest

Chicago and Detroit experienced a snow storm yesterday.

Mrs. Alex. McFegan is down from Drumheller on a visit to her father, F. S. Kafoury.

Auditor Binns, of the department of the Alberta Liquor Control Board, was in Blairmore during the week.

Mr. Harper, divisional superintendent of the Alberta Government Telephones, was in town yesterday.

Mr. J. Charbonnier, managing director of the West Canadian Collieries, Limited, arrived here from France last week.

Mrs. Goodwin, senior, was admitted to hospital at Bellevue on Tuesday to undergo an operation for appendicitis.

Mr. R. T. Johnson, of the firm of Johnson & Cousens, Bellevue, is able to be out around after several months of serious illness.

Wilfred Dutil returned home on Wednesday morning, having completed this year's course at Alberta University, Edmonton.

The sale of Alberta Pacific Grain Company assets to the Royal Securities Corporation of Montreal is announced. The sale, it is stated, involves six million dollars.

Five persons were killed when two airplanes collided over the aerodrome at Hendon, England. The planes fell three hundred feet and burst into flames, burning the occupants.

Two thousand head of buffalo from the Wainwright national park will be shipped to the north country to be turned loose on the range between the Slave and Peace rivers.

The Alberta legislature adjourned on Thursday of last week, to meet again on May 5th, to complete the legislation in connection with the return of the natural resources to the province.

The V.C. group of the C.G.I.T. will hold a tea and sale of fancy work, home cooking, candies, etc., on Saturday, May 1st, in the Lodge Hall. Many useful articles will be on sale. Keep this date open and come out and help the girls.

The Rev. Norman F. Priestly, pastor of the Coaldale United church, will likely be U.F.A. candidate for the Taber constituency in the forthcoming provincial election. Mr. Priestly acted as an adjudicator at the recent musical festival in Blairmore.

The C.P.R. construction work on the Cardston-Glenwood branch line has already commenced. Several portable stations are now nearing completion and the big graders are on the ground. Engineers are on the scene and there is a possibility of the Belly river bridge being put further down the river than expected.

On Wednesday night next the last of the season's series of whist drives will be held in the Lodge Hall by the members of Greenhill Temple, Pythian Sisters. Prizes for the drive, as well as for the best and poorest scores for the season will be distributed. A record crowd is assured on this occasion, particularly as a real banquet will be served.

The members of Crowfoot Robichaux Lodge held another successful whist drive in the Lodge Hall last night. The winners of the six prizes were as follows: Ladies' first, Miss Jean Shearer; second, Mrs. Mosely; consolation, Miss G. Harrison. Gent's first, Mr. H. N. Schweiger; second, Mr. J. H. Lund; consolation, Mr. W. J. Lord, junior. After supper, dancing was indulged in for a couple of hours, Messrs. Mason and Bond supplying the music.

Alphonse Fabro was down from Kimberley for a few days this week, on a visit to his parents.

Miss Strachan has returned to Bellevue, after spending Easter with her parents at Fernie.

G. Gassowski and Owen Morgan, of the Saunders Creek Collieries, were in town over Monday.

Large numbers of wild duck are to be seen in the rivers and lakes of southern Alberta at present.

Young men boast of what they are doing, old men of what they have done, and fools of what they are going to do.

Miss Sarah McVey has returned to her school, north of Brocket, after spending the Easter holidays here and in Calgary.

Another fish story: A Saskatoon sportsman claims to have landed a bull moose that weighed over a ton and had a spread of antlers of only four feet.

Mrs. F. M. Pinkney and Mr. and Mrs. Harper returned Monday morning from Calgary, where they on Sunday attended the funeral of the late Mrs. J. M. Windsor.

G. L. Stringham, M.L.A., has stated that the Alberta government would not grant a vendor's license in Waterton Park. Now watch for an influx of bootleggers and stool pigeons.

Life sentence in the penitentiary was on Tuesday imposed on Archie Killips and Nick Hawryluk, seventeen-year-old boys, who pleaded guilty to manslaughter for killing Jacob Milner, aged storekeeper, at Edmonton, on the night of January the 4th.

Many local folks will journey to Coleman tonight to hear the Rev. George Dickson, of Knox United church, Calgary, who is to lecture on the popular subject of "The Folk's Nest Door." Rev. Dickson addresses the Coleman Board of Trade at luncheon today.

Owing to the fact that the water was shut off for the greater part of yesterday, we were obliged to patronize the vendor store to the extent of a bottle of Gilbey's gin, with which to wash our face. Already people are complimenting us on the splendid after-effects of the tonic.

In the budget speech of the provincial treasurer, Hon. R. G. Reid, it is estimated that 150,000 people visited the national parks of Alberta last year. Assuming that, only half of these were from outside the province and that each spent only \$200 during his stay, the money brought into the province by such traffic would be \$15,000,000.

Mr. and Mrs. John E. Palmer, who formerly lived, in fact, were married in Pincher Creek, and who now live in Houston, Texas, send greetings. They have become acquainted with Mr. and Mrs. D. A. Stringer and re-nephew recollections. Following Mr. Palmer's residence in Pincher Creek he moved his law office to Lethbridge, and then to Calgary, where they went after settlement of family estates in Ireland—Pincher Creek Echo.

Jim Hansen, the big hockey star of the Bellevue team for the past several seasons, leaves next week for Trail, B.C., where he has accepted a good position. Jim was tendered a farewell supper and banquet by his Bellevue staff friends on Tuesday night. Trail is capturing quite a number of our heavyweights in hockey, including Butterfield, Anderson, Reddick and others, and it is thought that next season Trail will be sending out a bunch of Allan cup challengers that will land that trophy in the west.

The city of Fernie has decided to spend \$19,000 this year on street improvements.

"That finishes my tale," said the cat when he backed into the lawn mower.

Miss Emma Kidd is one of the latest to sport a Chevrolet Sedan—"Number —!"

The length of the cigarette holder seems to be in exact proportion to the paucity of wit behind it.

Mrs. S. Bannan has been called to Medicine Hat, owing to the illness of her mother, Mrs. McDougall.

Mr. D. R. McIvor, formerly of Cowley, but now a prosperous business man of Stettler, was in Blairmore on Friday last.

A bounty of ten cents will be paid for each crow killed in the province of British Columbia during the months of April and May.

Cecil Armstrong, of Bellevue, arrived on Tuesday to take a position as accountant with the Royal bank here—Fernie Free Press.

The remains of the late Angus McLachlan were laid to rest in the local Protestant cemetery on Thursday afternoon last, Rev. W. T. Young officiating.

Lornie was broadcasting by KWH on Monday and Tuesday of this week. Many local electric current consumers claim to have heard him quite distinctly.

A whist drive and dance was staged in the Oddfellows' hall at Bellevue on Friday night last for the benefit of Joseph Fidenato and was most successful.

A professor at McGill University says that clothing will be made from forest trees. Not so new at that! Did not Adam and Eve wear deer of fig leaves.

Mr. G. G. Henderson, of Fernie, commissioner under the Hope-Bank Depositors' Relief Act, was in town on Monday to interview some of the local victims.

Hanna Lodge of the Benevolent and Protective Order of Elks, No. 127, was organized on March 31st, with a charter list of more than seventy members.

A young woman in western Ontario was seized with illness after eating mouldy Brazil nuts and died a few hours later. It was found that the nuts had developed prussic acid, a deadly poison.

The modern sheik has been discovered. He's in Blairmore and spends more time with the compact and accompanying utensils and devices before the mirror than any flapper ever known.

A Spokane car passed through Blairmore on Friday last, enroute to Ottawa. Such a trip at this early season of the year constitutes a record. The young couple, occupants, informed us that they were routing via Winnipeg and St. Paul and hoped to return within two months.

In Calgary a few days ago we had the pleasure of meeting with Alex. White, former resident rancher of the Mountain Mill district and brother of Mrs. Fred W. Doubt, formerly of Blairmore. Mr. White has been away from The Pass for about fifteen years and is now farming near Vulcan.

We were slightly in error last week in stating that the presentation of a bouquet of flowers to Miss M. Jackson was on behalf of the Festival committee. The bouquet was the gift of Pincher Creek competitors. Miss Jackson officiated ably in the absence of Mrs. Groves, of Lundbreck, who was unable to attend the festival.
